

Submit Component Material for the Design of Thermal Concrete and Fluidized Thermal Backfill

Please provide the following:

(1 Bucket = 5 Gallons)

- 1 Bucket of Concrete Sand
- 1 Bucket of Medium Aggregate (Pea Gravel or 3/8" Natural or Crushed)
- 1/2 Bucket of Cement
- 1/2 Bucket of Fly Ash (Type C or F)

-
- Please **label each bucket** lid and the side of the bucket with the material type, quarry name, and supplier name.
 - Please **include spec sheets for each component in a Ziploc bag** to ensure the paperwork does not get wet or tear.
 - Please **provide the thermal and strength requirements, as well as the slump, for each mix design** (i.e., high strength and low strength).
